

# Backpack and School Supply Drive 8/12-8/13

The average annual expense of a new backpack and school supplies is \$75 (elementary) - \$100 (high school). This is a financial burden for many of the families that we serve.

Our annual Backpack and School Supply Drive is our chance to give a child the tools that they need to succeed in their education. New backpacks and school supplies allow a child to focus on their education and reach their potential.

We collect school supplies to support students in need at Christo Rey High School and Mustard Seed School.

Please consider donating the items listed below in order to help provide a child with a hopeful future.
